

## CHARTER

Considering that :

- **Intercultural and multilingual education is a major challenge for 21st century school**  
Beneficial for all children, intercultural and multilingual education fosters positive attitudes towards languages and cultures, brings closer non-native-speaker parents and the school community and creates a positive learning environment.

- **Art projects are precious allies for the development of multilingual education**  
Participating in Multilingual Kamishibai Competition means stepping into multilingual education with an artistic project that is open to the languages of the class. The competition itself is an opportunity to embrace actions that celebrate diversity. In other words, the final result should not be the main point of focus, the process each group goes through is what counts most.

As a partner, I am committed to :

Respect the vision of the competition which promotes multilingual and intercultural education.

Respect a common presentation and submission format (story created according to the kamishibai format which contains at least 4 languages of various statuses).

Use the visual identity which I will be provided in communications regarding Kamilala and Multilingual Kamishibai Competition and respect the edition chosen theme, shared by all Kamilala members.

Send the awarded kamishibai(s) to the team in charge of Kamilala website, on digital format and in good quality to be displayed on the website. All awarded kamishibais are to be scanned by the host competition organising team.

Analyse participants' log books and share findings and conclusions with DULALA team in due time.

Provide a description of the project as well as all useful information and translations (if applicable) to be displayed on the website.

As a general rule, inform Kamilala team of any current publication regarding the competition (press, social media, scientific paper...)

Considering the list above :

- I share KAMILALA values
- I agree to join the international movement initiated by DULALA bringing together agents for multilingualism
- I am committed to organising a competition following the tasks listed above
